Why Brazil?

World Cup 2014 in Brazil: Hands up!

BY RENATO ANDREOA · JANUARY 10, 2011 · 0 COMMENTS

FIFA's Goal In Brazil For 2014 World Cup Is To Create Infrastructures In Provinces - Sepp Blatter

Sepp Blatter has revealed that FIFA's goal in Brazil is to create infrastructures in the provinces.

By Stefan Coerts

05-Jan-2011 5:39:00 PM

The 2014 World Cup is still far away, but FIFA president Sepp Blatter is already eagerly anticipating the tournament

Rio Wins 2016 Olympics in a First for South America

If the World Cup in Brazil was any good I would go to the streets to march ! supporting the cause. But the truth is ! it's

Brazil to become fifth largest economy within five years

SHARE

by Kay Murchie

Brazil appears to be bucking the trend after creating 1.3 million jobs last year – when other economies have battling with rising unemployment.

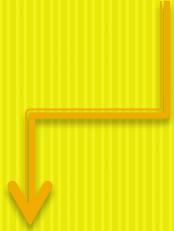

The economy has been going from strength to strength, growing by an annualised rate of 5%.

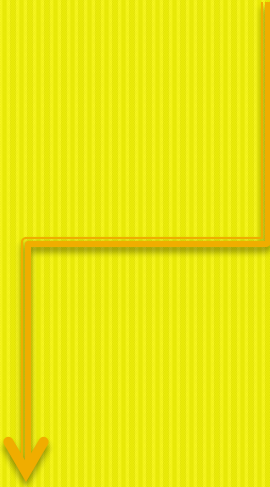

Theme

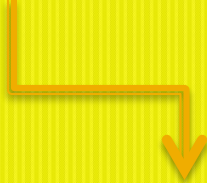

"Foundations for a Sustainable Future"

The things that the people in Brazil do to reach a sustainable future

Focus on economic, environmental and social sustainability of developments in Brazil

In what way is Brazil looking ahead when developing plans and how do they include the needs of future generations in the things that are now being developed
